

I have just recieved notice that there is an attempt being made to repeal the "no-call" privacy policy in Indiana. Please do not allow this to happen as these people will call at all hours of the day and night. My work schedule is sometimes somewhat erratic and I do not wish to be disturbed by annoying "sales" calls while I am trying to sleep. Nor do I wish to turn off the ringer on my phone in case my children are trying to call or if there is an emergency in which they or another family member needs to reach me. The "no-call" list has been working very nicely for me to date and I do not wish to incur the added expense of getting an unlisted or private number, not to mention the headache of notifying everyone {family and friends} of the change of phone numbers. if I feel that any of these members of the CBA have a service which would be beneficial to me, I should be able to learn about it on radio and or television ads.....not on my personal home phone. Thank you.

Sincerely,

Jay H. Lewis
